'AN EXCITING ALTERNATIVE TO THE ALPS FOR SCHOOL GROUPS'

True to its name, Alp2500 sits high in the stunning Pyrenees mountains of northern Spain. Offering over 140km of diverse slopes, modern infrastructure, and breathtaking scenery, this resort provides an exciting alternative to the Alps for school groups. Students and teachers will enjoy expertly prepared pistes and warm Spanish hospitality and with a perfect mix of sunshine and snow. It's easy to see why so many schools return year after year.

Expand your school trip beyond skiing and take the opportunity to explore Barcelona and immerse yourself in the vibrant Catalan culture. Marvel at the stunning architecture of the Basilica de la Sagrada Familia and savour the flavours of traditional tapas for an unforgettable experience.

The main reason our school groups love Alp2500 is the variety of runs. It's a truly fantastic choice for all skill levels. Beginners will thrive in La Molina's safe and supportive learning zones, while intermediates can enjoy the long, flowing reds and blues that connect the two ski areas. Advanced skiers will appreciate the thrilling black runs (give El Tub a shot if you dare) and off-piste opportunities, along with the chance to ski under the stars.

THE SKIING

Alp2500 connects two popular ski areas: La Molina and Masella. One ski pass connects the entire skiable domain, so whether you're exploring tree-lined pistes, basking in the sunshine on open slopes, or practising turns in the dedicated learning zones, Alp2500 promises an unforgettable experience. Thanks to its high altitude, the area boasts snow reliability. Plus, with 1,015 snow cannons on hand, it delivers great ski conditions even when the sun has other plans.

Masella

Known for its forested slopes, Masella offers a slightly more challenging terrain – with a higher volume of reds and blacks for intermediate and advanced skiers.

Regardless of whether you choose to ski down or not, it's worth taking the gondola to the summit of La Tosa, where groups can take in panoramic views of the Pyrenees.

La Molina

La Molina is Spain's oldest ski resort, opening in 1943. Since then, generations of skiers have returned year after year. Its extensive beginners' area is designed to ease first-timers into skiing and encourage progression. Elsewhere, separate snowpark and boardercross zones pull in the thrill-seekers, while there are plenty of expansive blue and red runs crisscrossing the resort for intermediates.
